

Maths workshop

Grade 1

class 1

→ Chn have to explain how they have grouped the equipment

→ chn sort same equipment then count

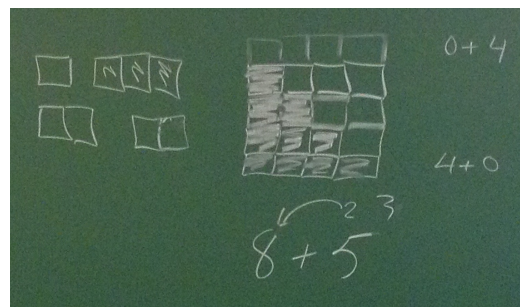

→ Similar to Hungarian system

chn have to understand the value of the number

Number bonds use steps

Ensure that they are secure on number bonds.

Fractions

Grade 2 Should be learning the meaning of 1/2 only

Fractions in Vaajakumpu school start in Grade 3

Multiplication  
Children start to learn in Grade 2  
Multiplication game

Chn throw a ball into a hole  
to learn their times table

$4 \times 4 =$   
 $5 \times 7 =$

Ideas from this blog....,
